Welcome to the pret shell. Type help or ? to list commands.
94.237.48.165:31105:/>

- Then you will get a shell for the printer, with this we could list the printing jobs, or better go through the directories of the printer to find the PDF.
- When we Enter the directory '/saveDevice/SavedJobs/InProgress' We see a PDF file. We then downloaded the PDF file, I first checked the file to see if there's any hidden strings or the Flag but there's nothing.
- But the File is base64 encoded, so to decode it i just ran:
'base64 -d Filename.pdf > HR-normal'
- After that i opened the HR-normal file and got a PDF file with a Flag

See Images Below

We get the flag : HTB{tr4v3rs3_m4n4g3ment_d3240!}

```

birdo@DESKTOP-0ENQDDA:~/PRET$ python3 pret.py 94.237.48.165:31105 pjl
